Porthpean Sailing Club

March 1983

'Tis Spring again and time to put aside our Knitting, Painting, Computers, Granny bashing implements etc., to take up a saner pursuit. We can experience the thrill of donning the rubber suit that gets tighter every year. Once more relish the thrill of being wafted around the bay in a miniscule plastic scoop powered by nylon stretched on an aluminium pole. Memories are stirred by the gentle tap of that pole against the back of the skull, the exhilaration of the third dunking in the icy briney, the nectar taste of polluted oggin and the horror of discovering that there is a thick rope attached around your ankle. Many are the pleasures of those freezing fingers crawling up the inside of your wetsuit. Best to come is the ecstasy of those chest pains lugging a laden, leaden, creaking trolley up the sand and that confounded lipway to the happy cries of those poor souls who disdained to join in the fun. The final delight as one collapses at the top is the merry cry "Rescue Boat".

Roll on Autumn. Happy Sailing.

To All Handicap B,.....

Let's see you all out on the water for the first race in spite of your Hangover from the Fitting Out Supper.

It will be interesting to see who takes my place at the front of the fleet because, just to give you a chance, I am leaving to earn my keep at the Island Cruising Club, Salcombe. I hope there is a large regular fleet, especially as it includes Toppers and Enterprises this year. It would be even more interesting if we could get four boats out in each class to re-introduce class racing.

Chris Bilkey is taking over as Class Captain, please help him to make Handicap B the BEST.....

Hope to see you all sometime during the season

Guyan

Sailing Secretary's Report

The sailing programme has now been worked out, and is included with this newsletter. The O.O.D. and Rescue Boat duty list is also included and you will find blank spaces in it for both duties, thanks to three volunteers Guy and Ruby doing alternate Wednesday Evenings, and Ashley for Sunday mornings. My sincere thanks to these volunteers for making my job easier. I hope that all the sailors show their appreciation to them as it means that they have to do less duties, which means that they can get on with the business of sailing. At the time of going to print one date has not been confirmed, that is May 29th, for a Sailboard Meeting. If this event turns out to be a non-event, the Spring Bank Holiday series will be on this day, and normal Club racing will be held on Sunday May 1st. Remeber sailing starts March 27th.

Please remember to fill in your race entry form. WE want a good season this year and I would like to see all boats on the water.

I leave you with a promise to do my best, but to ask for your support. We will all benefit in the end.

Good Sailing to you all

Paul Beacon

WORKS

Lack of communication has probably been the cause of poor attendance at the winter's work parties and this will possibly be improved next close season.

At the time of writing it is hoped that a good turnout of willing workers will see the essentials ready but it is going to be a close thing. Adult attendance at work parties has been very poor (an average of three.)

Works contd.

sanded and sealed to improve its looks and ease the future maintenance. This almost due to his own efforts.

A thank you to the young ladies who turned up on Sundays to make the drinks and suffer rude remarks about its quality.

A big thank you to Stuart who has now completed his lonely task of replacing ALL the plastic water pipe system in the club, installed a header tank to feed the showers etc., changed the position of the galley (almost finished) to make it more efficient and has modified the gents (a vast improvement).

Equally a thank you to the young lads of the Club who have turned out early and regular throughout the winter to form 90% of the workforce, sometimes working through Sunday afternoon. They have completely rebuilt the rotted out and dangerous fire bridge, rebuilt the escape steps and path, an access door in the 'loft', installed a new post in the field fence and are in the process of repairing the fence itself etc., etc., etc. We are lucky in having two budding electricians who, though young, seem to really know what they are doing. They are being a great help. Without all these young lads the Club would be in a sorry state (the Club House sorry).

Finally, if in the Clubhouse you see something a little bit tatty just understand that the youngsters have done THEIR best.

The best of luck to Guyan March in his new job. We will miss him both for his regular sailing and his being one of the main props of work parties.

The GALLEY DUTY List is on the reverse of this page. Please make a note now of your detail. Bobbie Barker has added the following notes for you, to help the smooth running of the Galley:

Opening Times - should be for approximately one hour after sailing finishes.

Cakes / Sandwiches - You need not bring anything with you for a Galley Duty, but naturally the Club is very grateful for any donations in kind.

Rotas: As in '82 we are trying to cover Sunday Lunchtimes with people who are usually there, but would ask galley girls to clear up from the lunchtime session if necessary.

Keys: You will be contacted by phone whenever possible to remind you of your duty, and arrangements to hand you the keys to the cupboard and till will be made then.

Wednesday Evenings: The Bar will be open on Wednesday sailing evenings.
